

## Start-up Projects

CUENCA RECORDINGS is the commercial music products company with 4 exciting projects currently in development. Due to current COVID “situations” being imposed on people throughout the planet, billions of music loving people are all online searching, finding, and enjoying new music to listen to. New and unique music products produced and distributed by CUENCA RECORDINGS create and deliver large amounts of revenue by way of the following initial internet online projects:

### PROJECT 1

Our new worldwide release of Bob Dylan’s iconic THE TIMES THEY ARE A – CHANGIN’, as a business project, holds a high degree of viability. For, obviously, the title of that song actually has more relevancy and meaning currently than when the original song had come out years ago! Our Cuenca Recordings company has on file a written legal contract from the lawyers of SONY MUSIC PUBLISHING that grants permission for Robert Leaman Sanders to record and release a commercial music product based on the subject song. This project has a good start as a result. In addition, we have an advantage in knowing that the author of a very new book with the title ‘BOB DYLAN ON A COUCH AND FIFTY CENTS A DAY” {available on Amazon} has agreed to play harmonica on our forthcoming master recording of Robert’s re-make of THE TIMES THEY ARE A CHANGIN. We are working with musicians from THE CUENCA SYMPHONY ORCHESTRA on this project.

### PROJECT 2

We own license to record and release worldwide the gigantically popular song FLY ME TO THE MOON. This tribute to Frank Sinatra project we are producing shows enormous promise of financial gains! [License 885-742-3340 status - TRO ESSEX Music Group](#) Robert received a standing ovation from the audience during a live tribute to SINATRA at Malibu Stage Company in California.

### PROJECT 3

I SEE MYSELF IN YOU, the new global anthem. Author of the movies, THE TERMINATOR and THE MATRIX, Sophia Stewart, wrote to Robert of CUENCA RECORDINGS that she loves the song, I SEE MYSELF IN YOU, because of the uplifting humanitarian spirit of the song. This project involves 300 top star singers in 100 countries. See the following info: [OUR BEGINNING.pdf \(archive.org\)](#)

### PROJECT 4

**FREEDOM !!!** is the name of CUENCA RECORDINGS’ album with 12 original new freedom songs written and produced by Robert Leaman Sanders. This project is offering a partnership with the world’s most formidable rock guitarist, G E SMITH of Saturday Night Live TV fame. [G. E. Smith - Wikipedia](#) # # #
